

Adrien LENOIRE

Information System
Manager

Enthusiast, diplomat, rigorous and pedagogue, I'm evolving in the IT field since my younger age.

I can easily adapt to any situation, and I am determined to give the best out of me at any moment.

PROFESSIONAL EXPERIENCES

IT Manager | August 2019 – August 2022

Entreprises Franque | Loos, France | 200 employees

Reporting to the group's president, I ensure Information System's continuity and integrity. I am involved as an advisor alongside companies' directions and manage digitation projects, as well as ERP migration inside the group. I am force of proposal on the deployment of new projects and lead IT's infrastructure overhaul projects.

Architecte Systèmes et Réseaux Junior | January 2019 – March 2019

Eurotunnel | Calais, France | 3500 employees

Member of the Architecture team, I take part in IT infrastructure overhaul project. I assist the IS manager in a network segmentation project and take part in the automation of IS security tasks.

Systems and Networks Administrator | May 2018 – August 2018

Alpa Groupe | Paris-Orléans, France | 450 employees

Reporting to Chief Information Officer, I take part in a new production site's integration to the group through firewall and business software configuration. I design and deploy an archiving system that enables secured data outsourcing to the cloud. I secure the Information System in a scientific analysis laboratory's context.

Integrator – Web Developer | January 2018 – August 2018

C'est une belle leçon | Lille, France

During my studies, I realize an open and customizable web site in collaboration with a graphist. – cestunebelleleçon.com
